

Ski-touring Cruise Antarctica 2018

This trip is customized for those with an adventure-driven spirit; a unique opportunity to ski and snowboard several of the untouched peaks of Antarctica. Journey deep into the rugged landscape of one of earth's last frontiers while enjoying the convenience, safety and comfort of the Icebird ship. Sail along the Antarctic Peninsula and join an exclusive group of intrepid travelers inspired by the legacy of Antarctic discovery.

Experience true modern exploration as you travel to a land covered by glaciers, never conquered by man. Travel through alleys of icebergs and study the blue mystery of such extraordinary formations of nature. Explore harbors and bays while surrounded by clouds of seabirds and become enveloped in the raw magnificence. Witness the profound beauty and isolation of a land covered by ice. Listen to glaciers calve and observe with wonder whales, black-browed albatross, snow petrels, penguins and seals.

Ponder the complexity of the fragile and dynamic ecosystem of the Antarctic Peninsula. Daily shore landings, lectures and zodiac excursions will cover the history, biology, geology and politics of our Southernmost continent. Actively explore this frontier or contemplate the social structure of a penguin colony- this once-in-a-lifetime trip is for you.

The best way to start a new Year!

From **05-01-2018** to **02-02-2018**
